## A-17 HOD MEETING Family-Friendly Space for Onsite Remote Viewing

The MMS Board of Trustees recently voted to provide dedicated "family-friendly" space at the House of Delegates meetings (beginning with A-17) to allow MMS members with children the option to remotely view the proceedings of the House of Delegates meetings.

In addition, the Board approved a directive to gather information on best practices from other associations on providing family-friendly services at business meetings to inform the preparation and conduct of a survey of its membership to determine member need, potential participation/utilization, and resources needed to provide these services, with a report back to the Board of Trustees at its September 2017 meeting.
