

Check-In for the House of Delegates and CME Sessions is now easier!

Each attendee's badge will have a quick response, or QR code. A QR code is a type of matrix barcode used on gate passes, nutrition labels, and for marketing purposes. The QR code appearing on your badge is programmed with your name and your MMS Member ID number. Attendees will "scan-in" to record their attendance at all HOD sessions and CME events (no scanning is required at lunches or social events).

On Thursday, when you first arrive at the meeting for the **House of Delegates First Session**, MMS staff will scan your QR code at the registration desk. You will also scan your code to record your attendance at the **Ethics Forum** on Thursday afternoon. Tap the screen to select your event. The event will turn **green** to signify that you are checked in

On Friday morning for the **Annual Education Program (AEP)**, you will need to check-in and obtain your AEP badge. The QR code on this badge will be scanned when you check-in at registration. For additional logistical notes and security information related to the AEP, please visit www.massmed.org/annual2018/cme.

For the **Bleeding Control for the Injured** program, you will scan your code to record your attendance. Tap the screen to select your event. The event will turn **green** to signify that you are checked in.

On Saturday, for the **House of Delegates Second Session**, you will scan your QR code with the help of a staff member or on your own at the kiosks located at the entrance of the HOD. Tap the screen to select the event you plan to attend. **On Saturday, there is no need to physically check-in at the registration desk!**
