

## Introducing **cvent** for MMS Annual and Interim Meeting Registration

**We are pleased to announce that the MMS is launching a new registration system beginning with the 2019 Annual Meeting. Online registration will be available in late February/early March for the meeting.**

This new system offers registrants many features including:

### ❖ **Automation**

All registrants will require an MMS [online account](#) (*most members have an account and use this login to access the MMS website*). Should you forget your MMS password, you may reset it using the "[forgot password](#)" link.

After you log in, the registration form will auto-populate your contact information.

Guests will have a custom experience as well, and will need to **register separately** and create an [online account](#), **if they do not already have one.**

### ❖ **Access to a 24/7 self-service portal**

Once you have registered, you will receive a confirmation email and be able to easily make changes to your registration on the portal.

You will also be able to add the MMS Annual Meeting to your calendar and easily access GPS directions with one tap on your phone.

### ❖ **Many things remain the same**

Registrants can continue to apply educational vouchers to CME programs and will receive CME certificates after the meeting. Attendees will continue to scan QR codes for HOD and CME attendance at the meeting.

If you pre-register before the deadline of **April 29, 2019, at noon**, the on-site check-in process will be just as quick and easy as usual. Pre-registration is the preferred method; however, on-site registration will continue to be available.
