

Tell Congress: Fix — Don't patch — Medicare Today

*The time for
Congress to act
is now.*

MASSACHUSETTS
MEDICAL SOCIETY

*Every physician matters,
each patient counts.*

Dear patient:

I love my Medicare patients, but it is harder and harder for me to continue to care for them.

For 10 years, doctors have pleaded to Congress to fix Medicare. Congress understands the problem but has refused to take action for years.

We need your help. Please ask Congress to fix the Medicare problem now.

Go to **massmed.org/meltdown** and sign the nationwide petition today!
