Per the *Procedures of the House of Delegates*, the speaker can place noncontroversial/routine reports on a consent calendar for immediate adoption. The consent calendar will be presented for a vote at the first session of the House. Any delegate can extract an item from this calendar for discussion at a reference committee and/or for subsequent deliberation by the House.

Your speakers reviewed all items of business submitted to the HOD and determined that the following reports in this *Delegates' Handbook* should be placed on the consent calendar:

Reference Committee C

Item #	Title	Code
15	Membership Dues	COF Report A-19 C-12
16	Delegates-at-Large	BOT Report A-19 C-13

Dear Members of the House of Delegates,

As the newly elected President of the Massachusetts Medical Benevolent Society I am happy to share with you a brief update of the Society's activities. I have succeeded Dr. Charles Welch who served in this position with great distinction for the last 15 years, though fortunately Charlie, in his retirement, remains an invaluable Trustee of the organization.

The mission of the Benevolent Society is to support the recovery and rehabilitation of needy Massachusetts physicians and their families from personal, professional or financial crisis by providing time-targeted financial assistance. For many years after the Society was established, it largely supported physicians who were injured in the Civil War or their widows and children. Now the types of problems have changed, but the needs are ongoing. Our collegial outreach continues to help members of the medical family hold to their potential as valued members of the profession and the community.

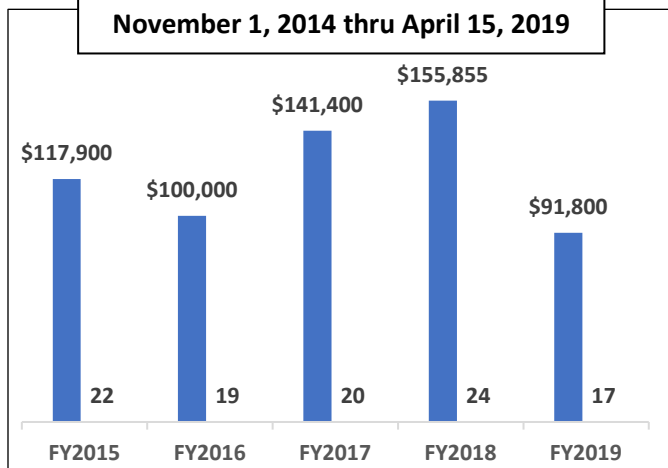

Last year was a very busy one for the Benevolent Society. More than \$155,000 in aid was provided to 24 beneficiaries, most often referred to us from Physician Health Services. *It is important to note that the figures for FY2019 in the chart to the right reflect only the first six months of the fiscal year.*

Now, more than ever, the Benevolent Society has an important role to fill in caring for some of our most distressed colleagues. Over the past decade, assistance has been provided to physicians striving to return to practice after entering recovery from substance use disorders and those struggling with other mental or physical health issues or financial hardship related to family illness or domestic turmoil.

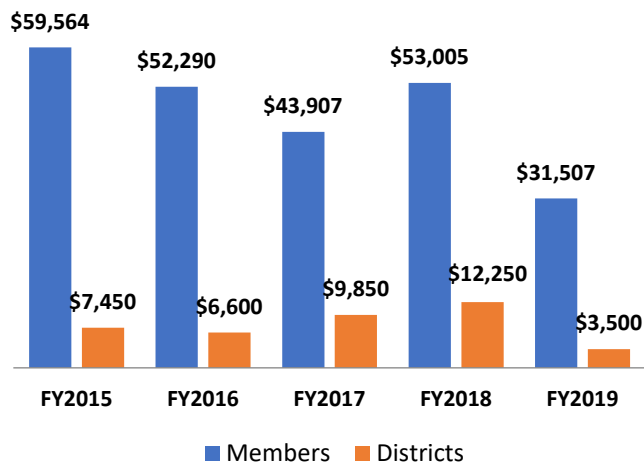

Sometimes, under mounting stressors, a physician simply needs financial support to cover the cost of medical treatment, drug testing, living expenses, or to make alternative employment arrangements. Many of these individuals require longer-term assistance; others may only need one-time assistance. We rely on our two, very experienced, contracted social workers to evaluate each client's needs in considerable detail and assess what type of assistance may be required.

The monetary support we provide to our beneficiaries is not large, however it is very significant to them. Beneficiaries often emphasize how meaningful it is to know that they have not been forgotten by their medical colleagues, and it is unimaginably reassuring to them to know that their profession still cares about and believes in them.

**Total Aid and # of Beneficiaries
November 1, 2014 thru April 15, 2019**

**Member & District Contributions
November 1, 2014 thru April 15, 2019**

I would like to thank the many kind individual donors and district medical societies, as well as the general membership of the Massachusetts Medical Society, for the outpouring of financial support we have received over the years. Last year alone we had donations from more than 285 individual donors and 12 district medical societies, as well as support from some generous hospital departments and family foundations. *It is important to note that the figures for FY2019 in the chart to the left reflect only the first six months of the fiscal year.*

It is so gratifying to know that we are all part of such a benevolent profession.

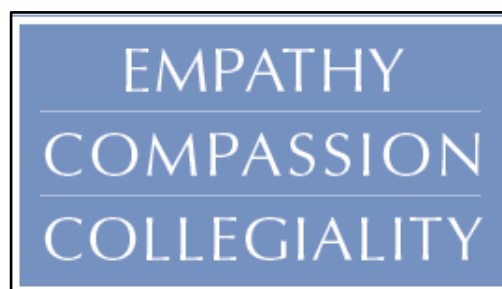

During this time of rapid change and so many challenges to and demands upon the medical profession, please remember that the Massachusetts Medical Benevolent Society is a compassionate resource.

This is important not only for those who may be inclined to help us with this effort by donating but, most importantly, for those who may benefit from a timely helping hand.

Sincerely,

Mark A. Rockoff, MD
President

The Massachusetts Medical Benevolent Society was formed in 1857 with the express purpose of providing financial relief to worthy members of the medical profession and their families who experience reduced circumstances.
