

REGISTER ONLINE FOR ANNUAL MEETING 2020

Online Registration

Registration will open in March 2020. All registrants will require an [MMS online account](#) (most members have an account and use this login to access the MMS website). Should you forget your MMS password, you may reset it using the [Forgot password](#) link.

After you log in, the registration form will auto-populate your contact information and walk you through each step.

All registrants, including guests, will have a custom experience and will need to register separately.

Apply Your MMS Education Vouchers

MMS Education Vouchers may be used as payment towards registration fees for the Annual Education Program and the Shattuck Lecture.

To apply your voucher(s), you may check your balance by logging into your MMS account. Click "My Account" in the top right corner, then navigate to "My Education Vouchers". V18 and V19 vouchers are both valid and eligible for use. Copy your invoice code(s) and paste into the promotional code box. Your voucher balance(s) will be deducted from your CME program fees.

Save Time by Pre-Registering

If you pre-register before the event, the on-site check-in process will be a breeze. You may head directly to Express Check-In to check yourself in and get your badge.

Pre-registration is the preferred, faster method; however, on-site self-registration will continue to be available. Once you have registered, you will receive a confirmation email and be able to easily modify your registration at any time.
