Telemedicine: Take Your Practice into the Age of Virtual Care

Register at www.massmed.org/virtualcare2020

Telemedicine and virtual care are rapidly emerging as important new approaches. Learn about practice re-design to expand care through teleconsulting as well as what telemedicine offers the medical profession to move forward in the 21st century. New opportunities are emerging for physicians to improve the quality of care and enable new forms of practice—the “gig” economy.

Discover how chronic disease management tools, digital therapeutics, remote patient monitoring, transitional care and “hospital at home” can change how care can be delivered as well as what patients expect. Our speakers and panel will also discuss how these technologies can provide solutions to problem areas like under-resourced geographies, addiction medicine, disaster medicine and pandemic response.

What are the new payment models and regulatory environments? Join our dialog discovering what the MMS can do concretely to help shape this future.

Accreditation Statement:

The Massachusetts Medical Society is accredited by the ACCME to provide continuing medical education for physicians.

AMA Credit Designation Statement:

The Massachusetts Medical Society designates this live activity for a maximum of 6.0 AMA PRA Category 1 Credits™.

Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Speakers:
